Allstate Insurance Company of Canada Manager, Reserving & Reinsurance

The Allstate Insurance Company of Canada, with headquarters in Markham, Ontario, has provided property and casualty insurance products to Canadians since 1953. At Allstate, our actuaries play an essential role in developing products that meet our customers' needs. They also provide vital reserving and reinsurance recommendations that are an integral part of our business. Our team has a supportive environment to make decisions, be accountable, and become independent workers, yet team players. We have a strong commitment to support our actuarial staff in their studies, mentoring them along their career path, and in job rotation, keeping in mind our firm believe in work/life balance.

Reporting to the Director, Reserving and Reinsurance, the Manager, Reserving and Reinsurance is accountable for leading and mentoring two Analysts; for developing, recommending, implementing and monitoring Claim reserves; implementing and monitoring risk transfer techniques; supporting the financial operations of the companies through their business plans and communicating the impact of changes on our reserve position to the financial statements.

As our ideal candidate, you hold a Bachelor's degree; have a minimum of 4 years property and casualty experience and a minimum of 4-5 CAS exams. You possess strong verbal and written communication skills along with the ability to explain technical concepts to a non-technical audience.

Interested candidates, who meet the requirements, should forward a resume to Sharon Hanswyk via e-mail at (shanswyk@allstate.ca) or via fax (905) 475-4924. We thank all applicants for their interest but only those candidates chosen for an interview will be contacted.
