7. Garage entrance will be on the left side of Sycamore St

Upon arrival, please take the garage elevators to the Lobby and check in with the Great American Security Desk for further direction.

QUEEN CITY SQUARE GARAGE

Garage Layout Information & Helpful Hints

Queen City Square Garage consists of over 2,200 parking spaces on 11 levels. The garage is a large L-shaped facility with a portion under the 303 Broadway office building, a portion under the Great American Tower, and a portion extending north to Fourth Street.

The parking levels are numbered P1-P8 from the Third Street level up to the top of the garage, while the three levels below the Third Street level are numbered B1 to B3 (with B3 being the lowest). Note that at the northern portion of the garage near Fourth Street, levels P1-P3 are actually located below the street level.

Entrances/exits exist on all four of the surrounding streets. Due to the slope between 3rd Street and 4th Street, these entrances/exits are on three different levels of the garage, as follows:

- Level P1 for the Third Street entrance
- Level P2 for both Sycamore Street and Broadway entrances
- Level P4 for the Fourth Street entrance

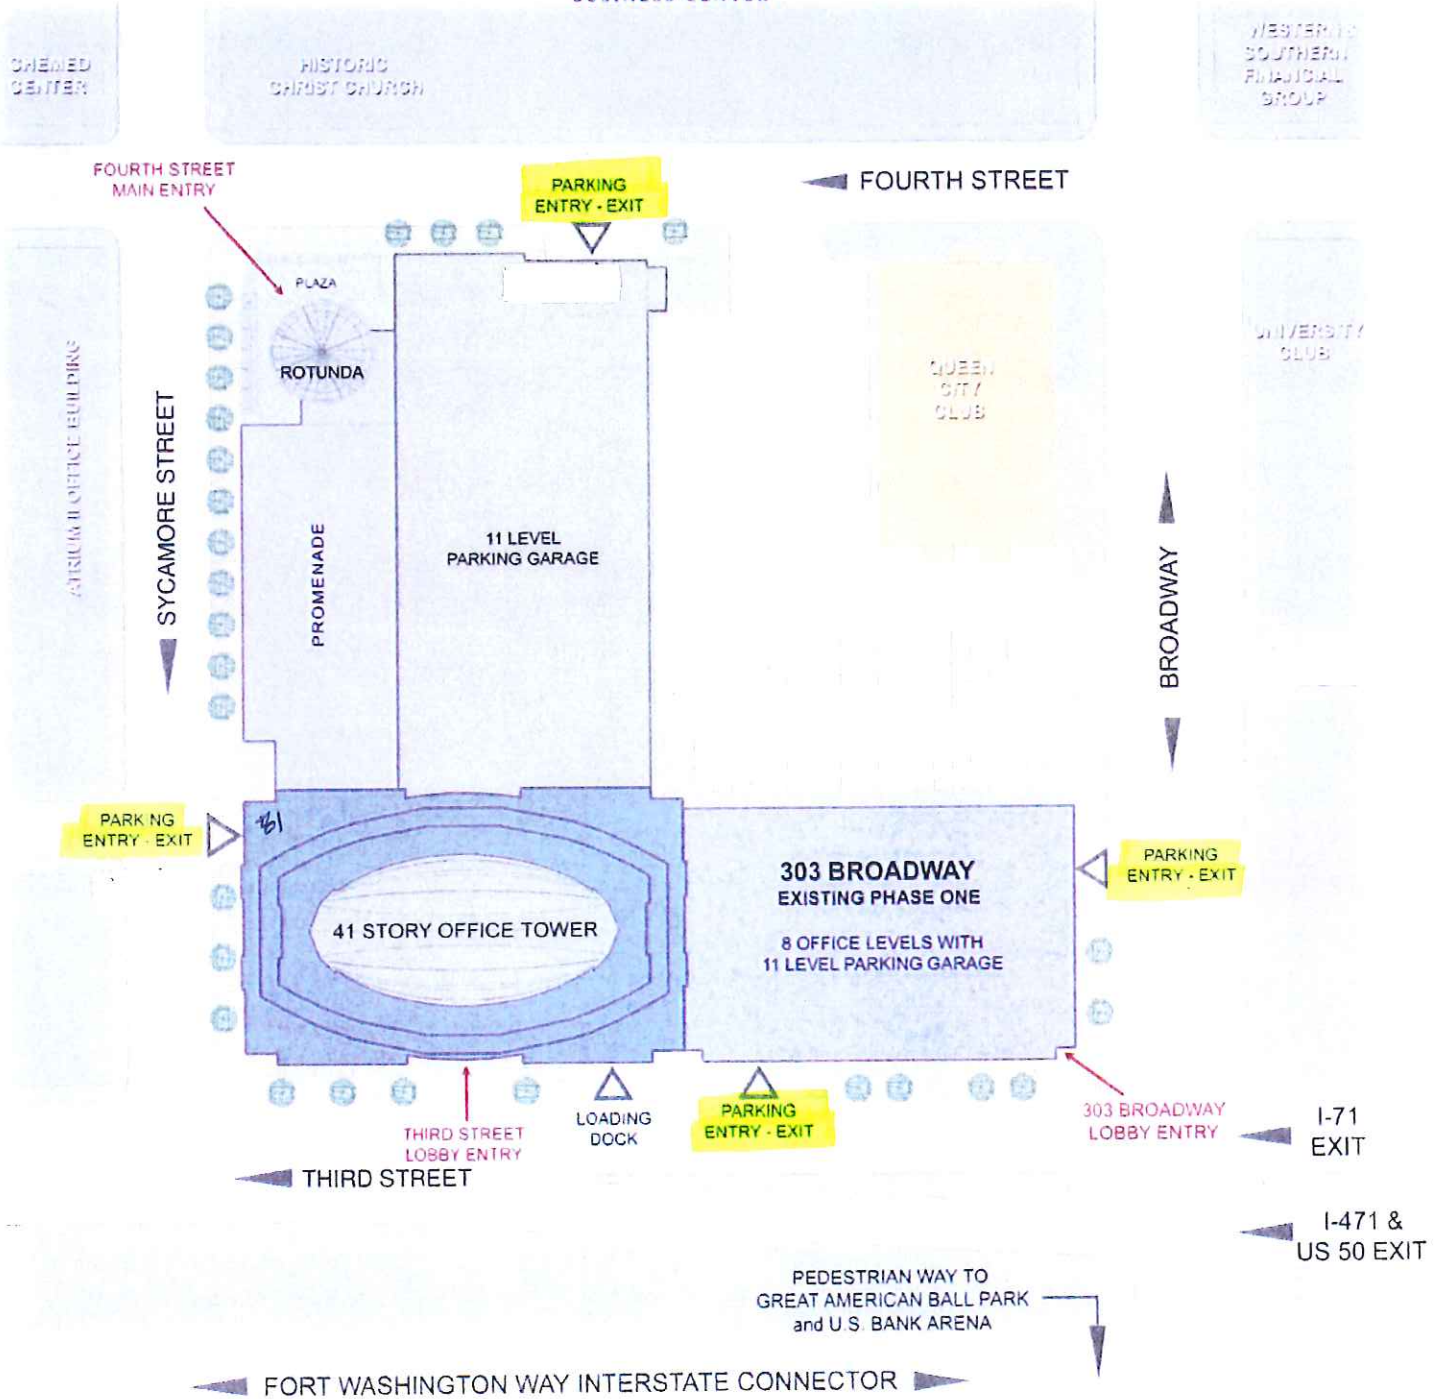

Queen City Square Garage has a specially designed circulation pattern that is designed to provide quick access to parking spaces on all levels, without the need to circulate through every level of the garage. The key to this system is choosing the correct entrance to the garage. Following are some helpful tips:

1. To park in the upper levels of the garage under the 303 Broadway building, enter from Broadway. To park in the lower levels under the 303 Broadway building, enter from Third Street.
2. For the rest of the garage, entering from Third Street provides the easiest access up to levels P3 and P5, and down to level B2.
3. Entering from Sycamore Street provides the easiest access to level P2 and up to levels P4 and P6, and down to levels B1 and B3.
4. Entering from Fourth Street provides the easiest access up to levels P5, P7 and P8, and down to levels P3 and P1.
