

# IN CELEBRATION OF VOLUNTEERS: THE CAS 2009 VOLUNTEER HONOR ROLL

## WE ARE AN ASSOCIATION OF PEOPLE, PROFESSIONALS, AND FRIENDS.

**S**ince the founding of the CAS in 1914 volunteers have been the main life force sustaining the society through its various dimensions of growth—in the examination process and in the variety of continuing education activities as well as in supporting the sheer growth in membership. As a result members of the CAS through their numerous volunteer activities essentially direct all phases of CAS operations.

In one particular year, 902 CAS members volunteered to fill 1,359 positions. An effort of this scale, which is quite typical, generates a continuous

need for volunteers. Each year about a third of these positions become available through normal rotation. These positions include the entire range of CAS activities: the examination committees, research and development activities, liaison representatives, and various program committees and speakers, who serve as faculty for these programs. We'd also like to thank AAA volunteers, meeting and seminar speakers, and Regional Affiliate program participants not listed here. We recognize that none of these activities can take place without the active participation of the many CAS volunteers and for this we thank you.
