CAS’s Mission, Vision and Core Values

Mission Statement
The purposes of the Casualty Actuarial Society are to:

- Advance the body of knowledge of actuarial science applied to general insurance, including property, casualty and similar risk exposures.
- Expand the application of actuarial science to enterprise risk and systemic risks.
- Establish and maintain standards of qualification for membership.
- Promote and maintain high standards of conduct and competence.
- Increase the awareness of actuarial science.
- Contribute to the well-being of society as a whole.

Vision Statement
Actuaries are recognized for their authoritative advice and valued comment wherever there is financial risk and uncertainty.

CAS Member Growth 2008-2017

CAS Members by Type of Employment
Diversity

In 2015 the CAS Board of Directors adopted the CAS Diversity Strategy, formalizing the CAS’s commitment to facilitating the evolution of a multidimensional property-casualty actuarial profession. The goal of the strategy is to increase the membership of underrepresented groups in the CAS.

To create a baseline to measure progress on membership diversity, the Diversity Committee captured current CAS membership demographics by ethnicity and gender.
Volunteerism

CAS members value our community and the relationships formed through volunteer activities. In FY 2017, 2,467 out of 7,902 CAS members served as volunteers. That’s 31.2% of the membership! Volunteer contributions spanned the entire range of CAS activities, including examinations, research and development and educational programs. The CAS is grateful for the continued support of employers who encourage their actuaries to volunteer their time and effort to the CAS. We are proud to recognize some of these employers.

Top Ten Employers of CAS Volunteers

Willis Towers Watson
The Hartford
Milliman, Inc.
Allstate Insurance Company
Zurich North America
CNA Insurance Companies
United Services Automobile Association
PricewaterhouseCoopers
Munich Re America, Inc.
Deloitte Consulting, LLP
Aon Risk Solutions

Large Employers with at Least 40% of Members Volunteering

Volunteer Recognition Program

The CAS launched a special volunteer recognition program. This new program will allow us to recognize hardworking volunteers who do a “swell” job on their committees. Nominated members received a custom CAS S’well bottle and a personal thank you note from the CAS president. Over 280 volunteers were recognized for their hard work by their committee chairs.

- Exams LC, ST, 5, 6C, 6U, 7, 8, 9
- Exams LC, ST, 5, 6C, 6U, 7, 8, 9
- Exams LC, ST, 5, 6C, 6U, 7, 8, 9
- Exams 3L, 5, 6C, 6U, 7, 8, 9
- Exams 3L, 5, 5A, 5B, 6C, 6U, 7, 8, 9

* Exams LC, ST, 5, 6C, and 6U are given twice a year. Exam S was first given in Fall 2015 and is now offered twice a year.
** Exams 7, 8, and 9 are given once a year.

The CAS Path to Success

In principle and practice, the CAS is the gold standard for the property-casualty actuarial profession. With 100 years of experience and expertise, the CAS continues to focus on comprehensive exams and education that are uniquely relevant to property-casualty actuaries. Our CAS credentialing program is the program of choice for attracting top candidates and meeting employers’ needs.

* The CAS will honor credits from candidates who pass examinations offered by other organizations that cover our CAS learning objectives for CAS Exams 1, 2, 3F, and 4 and VEE. These organizations include but are not limited to: Society of Actuaries, Canadian Institute of Actuaries, Institute and Faculty of Actuaries (UK), Actuaries Institute (Australia), Actuarial Society of South Africa, and Institute of Actuaries of India. For example, requirements for CAS Exams 1, 2, 3F and 4 can be fulfilled by passing the Society of Actuaries’ Exams P, FM, MFE, and C, respectively.
Technology-Based Examination

On November 1, 2017, the CAS announced that it is transitioning its exams to a computer-based environment called Technology-Based Examination (TBE). Beginning with Exam 5 in spring 2018, candidates will use Excel to take their exams on personal computers that will be overseen by remote proctors. With this transformation of examinations, the CAS continues to evolve its basic education system. TBE will more closely imitate on-the-job assignments in which actuaries use computers for work, thus making CAS exams more relevant to real-life actuarial practice.

Candidates will sit for exams in the TBE environment using Excel software on their own computers, and at the location and time of their choosing, within certain parameters. Professional remote proctors administering the exams will monitor candidates through a webcam and microphone throughout the exam sitting.

The CAS has partnered with two technology firms to administer TBE: TrueAbility will be providing the online, Excel-based testing environment, and PSI will provide the professionally-trained remote proctors.

Along with the announcement, the CAS unveiled a dedicated TBE section of the CAS website, which included frequently asked questions and responses, TBE computer requirements, and other resources.

Timeline to TBE

While TBE was announced in November 2017, the development timeline as spanned several years, with many milestones along the way.

- **2013-2015**
  - CAS forms a technology working group to explore options for transitioning its upper-level exams from paper/pencil to a computer-based format.
- **Early 2016**
  - PSI identified as a viable vendor option to provide remote proctoring for CAS exams.
- **March 2017**
  - CAS Board of Directors approves implementation of TBE for Spring 2018 Exam 5; the Candidate Liaison Committee is engaged to provide candidate feedback on implementation plans.
- **October 2017**
  - Final widespread testing of TBE platform completed by CAS volunteers and staff.
- **Mid 2016**
  - CAS establishes a technology general officer position within the Syllabus and Exam Committee to implement TBE beginning with Exam 5.
- **April 2017**
  - Contracts formally signed for delivery of TBE in Spring 2018.
- **November 2017**
  - TBE publicly announced to CAS members and candidates.
- **May 2018**
  - Exam 5 will be offered as a TBE-administered exam for the first time.

From concept to execution, the development of TBE will span nearly five years and include contributions from hundreds of volunteer members and CAS staff.
University Engagement

The CAS expanded its support for universities in 2017 through its membership programs, CAS Student Central and CAS Academic Central. Student membership increased by 21% percent, reaching 6,881 members at 676 universities. Academic membership increased to 442 members at 225 universities.

New University Resources

The CAS released its own Actuarial Escape Room toolkit that was successfully piloted at fall 2017 CAS Student Programs.

CAS University Award Program

The Casualty Actuarial Society (CAS) awarded three universities the 2017 CAS University Award, an honor created to recognize schools doing exemplary work in preparing students for a career in the property and casualty insurance industry. The schools honored includes:

- Ball State University
- St. John’s University
- University of Wisconsin-Madison
Participation in University Events

In 2017, the CAS was represented at more than 100 in-person events for university students across the world, ranging from career fairs and student conferences to presentations at student clubs and university classes.

CAS Student Programs and University Visits

The CAS hosted approximately 150 university students at six different student programs held in conjunction with 2017 CAS meetings and seminars.

CAS Trust Scholarship

The CAS Trust Scholarship Program, funded by donations to the CAS Trust, awards up to three scholarships to deserving students annually. First place receives a $10,000 scholarship. Second and third place winners, if chosen, are each awarded a $5,000 scholarship.

The objective of the scholarship is to further students’ interest in the property-casualty actuarial profession and to encourage the pursuit of the CAS designations.

Scholarship recipients are recognized at the CAS Annual Meeting in November.

Awards and Recognition

EXCEL Award for 2016 CAS Annual Meeting Social Media Campaign

The Casualty Actuarial Society (CAS) was honored with a bronze by Association Media & Publishing’s EXCEL Awards for the social media campaign surrounding its 2016 CAS Annual Meeting in Orlando, Florida. The winning #CASAnnual campaign took place on a variety of social media platforms before, during, and after the meeting. The award was given in the category of Social Media Campaign-Event/Convention.

The campaign included elements such as:

• The creation of a social media toolkit, given in advance to Annual Meeting speakers.

• A daily Twitter contest that invited attendees to post a picture from the meeting with the #CASAnnual hashtag for a chance to win a $100 gift card.

• The launch of the first-ever custom CAS Snapchat filter, which was available during the reception at Universal’s Islands of Adventure.

Publications

Each year the CAS’s many publications enlarge the rich trove of actuarial literature.

Variance

Variance’s mission is to disseminate practical and theoretical research of interest to casualty actuaries worldwide. In 2017 the CAS published volume 10, number 1, and awarded the Variance Prize to Greg Taylor and Jing Xu for their paper “An Empirical Investigation of the Value of Claim Closure Count Information to Loss Reserving,” which is published in Variance 10:1.

Actuarial Review

An in-depth actuarial news source, Actuarial Review keeps CAS members and candidates informed of the latest in science and technology, business ethics and professionalism, as well as the achievements of CAS members and committees. In 2017 AR featured articles on predictive analytics and modeling, cyber security, the National Flood Insurance Program, and actuaries in nontraditional roles.

CAS Monograph Series

The CAS Monographs Series continues to make its mark on actuarial literature. These peer-reviewed, authoritative works encompass significant subjects in casualty actuarial science. In 2017 another work was added to this Series: “A Machine-Learning Approach to Parameter Estimation” by Jim Kunce and Som Chatterjee.

Future Fellows

Future Fellows is vital for those sitting for CAS Exams. This quarterly print and online newsletter gives CAS Candidates access to all they need to know about examinations, study methods, career development, continuing education, as well as new CAS initiatives such as Technology-Based Exams.

CAS E-Forum

In 2017 the CAS E-Forum featured CAS-sponsored research on credit risk resources and an adaptation of classical CAPM to insurance. E-Forum also posted a host of independent research.

TRAVELERS
The CAS Institute

The new CAS subsidiary expanded its offerings in 2017.

A New Predictive Analytics Curriculum

Community of Practice Event

On March 27, 2017, more than 40 predictive analytics practitioners gathered in San Diego for a day of unique information sharing and networking. The inaugural iCAS “Community of Practice” Event, consisted of sessions specifically tailored for advanced data practitioners. Topics included external data, machine learning, and model deployment for implementation; sessions also addressed data ethics, risk governance, and best practices for predictive modeling.

Recognition of CSPAs

The CAS Institute honored the first recipients of its Certified Specialist in Predictive Analytics (CSPA) credential during the 2017 CAS Ratemaking and Product Management Seminar in San Diego, CA.

Webinar Offerings

Deloitte Chief Data Scientist and iCAS Predictive Analytics Subject Matter Expert Jim Guszcza, FCAS, Ph.D., CSPA, moderated a free webinar on March 15, 2017, on the impacts of Artificial Intelligence (AI) technologies on business and societal landscapes — and the increasing need to factor societal considerations into future autonomous systems. Iyad Rahwan, associate professor of media arts and sciences at the MIT Media Lab, was the featured speaker on the webinar. Rahwan discussed his recent work crowdsourcing beliefs about what autonomous vehicles should do in various life-or-death scenarios. This research involved collecting 25 million decisions from people worldwide.
Event Sponsorship

The CAS Institute (iCAS) sponsored the 6th Asia Insurance CIO Technology Summit at the Four Seasons Hotel in Singapore. The Summit, which ran September 4-5, brought together a diverse audience of c-suite executives, IT providers, risk managers and research institutions to explore how technology and the role of the Chief Information Officer are shaping the current insurance landscape. Speakers discussed the impact of CIOs in the era of InsurTech, best practices in cyber security, and examples of CIO innovation and change management.
