### CAS’s Mission, Vision and Core Values

#### Mission Statement

The purposes of the Casualty Actuarial Society are to:

- Advance the body of knowledge of actuarial science applied to general insurance, including property, casualty and similar risk exposures.
- Expand the application of actuarial science to enterprise risk and systemic risks.
- Establish and maintain standards of qualification for membership.
- Promote and maintain high standards of conduct and competence.
- Increase the awareness of actuarial science.
- Contribute to the well-being of society as a whole.

#### Vision Statement

Actuaries are recognized for their authoritative advice and valued comment wherever there is financial risk and uncertainty.

Casualty Actuarial Society Annual Report
Diversity

In 2015 the CAS Board of Directors adopted the CAS Diversity Strategy, formalizing the CAS’s commitment to facilitating the evolution of a multidimensional property-casualty actuarial profession. One goal of the strategy is to increase the membership of underrepresented groups in the CAS.

To measure progress on membership diversity, the Diversity Committee reviews current CAS membership demographics by ethnicity and gender.

Volunteerism

CAS members value our community and the relationships formed through volunteer activities. In FY 2018, 2,451 out of 8,352 CAS members served as volunteers. That's 29.3% of the membership! Volunteer contributions spanned the entire range of CAS activities, including examinations, research and development, and educational programs. The CAS is grateful for the continued support of employers who encourage their actuaries to volunteer their time and effort to the CAS. We are proud to recognize some of these employers.

Top Ten Employers of CAS Volunteers

Volunteer contributions spanned the entire range of CAS activities, including examinations, research and development, and educational programs. The CAS is grateful for the continued support of employers who encourage their actuaries to volunteer their time and effort to the CAS. We are proud to recognize some of these employers.

The CAS Path to Success

In principle and practice, the CAS is the gold standard for the property-casualty actuarial profession. With 100 years of experience and expertise, the CAS continues to focus on comprehensive exams and education that are uniquely relevant to property-casualty actuaries. Our CAS credentialing program is the program of choice for attracting top candidates and meeting employers’ needs.
University Engagement

The CAS expanded its support for universities in 2018 through its membership programs, CAS Student Central and CAS Academic Central. Student membership increased by 15% percent, reaching 7,896 members at 817 universities, and academic membership increased by 5% to 464 members at 238 universities.

CAS University Award Program

The Casualty Actuarial Society (CAS) awarded three universities the 2018 CAS University Award, an honor created to recognize schools doing exemplary work in preparing students for a career in the property and casualty insurance industry. The schools honored include:

Arizona State University
Renmin University of China
The University of Texas at Austin

Participation in University Events

In 2018, the CAS was represented at more than 100 in-person events for university students across the world, ranging from career fairs and student conferences to presentations at student clubs and university classes.
CAS Student Programs

The CAS hosted approximately 125 university students at five different student programs held in conjunction with 2018 CAS meetings and seminars.

CAS Trust Scholarship

The CAS Trust Scholarship Program, funded by donations to the CAS Trust, awards up to three scholarships to deserving students annually. The First Place Winner receives a $10,000 scholarship. The Second and Third Place Winners, if chosen, are each awarded a $5,000 scholarship.

The objective of the scholarship is to further students’ interest in the property-casualty actuarial profession and to encourage the pursuit of the CAS designations.

Each year, the three recipients of the scholarship are recognized at the CAS Annual Meeting in November. In 2018 Ann Pogrebitskiy of The University of Nebraska Lincoln — awarded $10,000 — and Kristen Marshall of Illinois State University — awarded $5,000 — traveled to Las Vegas for the event, and are each pictured below with CAS President Brian Brown. Adam Lathan of Drake University, who was awarded $5,000, was recognized on campus.
Continuing Education

Meetings and Seminars

The number and variety of CAS offerings represent an ongoing expansion to respond to member demand for high-quality, affordable continuing education opportunities. A total of 3,572 people attended the six largest CAS meetings and seminars in FY 2018.

- Annual Meeting
  Anaheim, CA
- Ratemaking and Product Management Seminar
  Chicago, IL
- Enterprise Risk Management Symposium
  Miami, FL
- Spring Meeting
  Boston, MA
- Seminar on Reinsurance
  Brooklyn, NY
- Casualty Loss Reserve Seminar (CLRS)
  Anaheim, CA

Awards and Recognition

Excel Awards for candidate communications, social media, and diversity efforts

The CAS was honored for exemplary work over the past year, **garnering three coveted EXCEL Awards** for marketing and communications projects including the **CAS Future Fellows newsletter**, a social media campaign for the **2017 CAS Annual Meeting** and an advertisement about **CAS diversity efforts**. The EXCEL Awards, hosted by Association Media & Publishing, recognizes excellence in nonprofit association marketing and communications. Winners of the highly competitive contest, which received over 800 entries this year, were honored at the EXCEL Awards Gala on June 25, 2018 in Washington D.C.

The awards include:

A bronze award in the category of **“Editorial Excellence (Print)”** for **CAS Future Fellows newsletter**

*Future Fellows*, the CAS’s quarterly newsletter dedicated to providing information and resources to CAS candidates, was recognized for editorial excellence for its special Technology-Based Examination (TBE) edition. This December 2017 issue of *Future Fellows* outlined important information about the transition to TBE and was recognized for its writing excellence.

A bronze award in the category of **“Social Media Campaign (Event/Convention)”** for the **2017 CAS Annual Meeting**

The #CASAnnual campaign was executed on a variety of social media platforms before, during and after the meeting and included elements such as a social media toolkit for speakers, a daily Twitter contest for attendees and a custom Snapchat filter.

A silver award in the category of **“Advertisement Single Piece”** for the **CAS Diversity Ad**

This advertisement was featured in the program guide at the International Association of Black Actuaries (IABA) 2017 Annual Meeting. The graphic reflects the CAS’s ongoing commitment to supporting and promoting diversity in the actuarial profession, while also demonstrating CAS’s proud sponsorship of IABA.

This Data Analytics Job May Offer More Pay And Impact Than Data Scientist: Actuary

You want to be a data scientist. You may become happier and richer as an actuary.

3,418 people reached
Publications

Each year the CAS’s many publications enlarge the rich trove of actuarial literature.

CAS Monograph Series
The CAS Monographs Series continues to make its mark on actuarial literature. These peer-reviewed, authoritative works encompass significant subjects in casualty actuarial science. In 2018 work continued on a number of monograph submissions, set to be released in 2019.

Actuarial Review
Actuarial Review is an in-depth actuarial news source for CAS members and candidates who want to know the latest in science and technology, business ethics and professionalism, as well as the achievements of CAS members and committees. In 2018 AR featured articles on the assessment of 2017’s natural catastrophes, sea level rise and flood risk, automated vehicles’ impact on insurance, the insurtech revolution, and cyber insurance.

Variance
Variance’s mission is to disseminate practical and theoretical research of interest to casualty actuaries worldwide. In 2018 the CAS published volumes 10:2, 11:1-2 and 12:1, with Volume 11 being a special themed edition devoted to predictive analytics. The Variance Prize was awarded to Gregory F. McNulty for his Variance 11:1-2 paper, “Severity Curve Fitting for Long-Tailed Lines: An Application of Stochastic Processes and Bayesian Models.”

Future Fellows
Future Fellows is a vital publication for those sitting for CAS Exams. This quarterly print and online newsletter gives CAS Candidates access to all they need to know about examinations, study methods, career development and continuing education.

CAS E-Forum
In 2018 the CAS E-Forum posted reports of the CAS Automated Vehicles Task Force and the CAS Working Party on Sustainable ERM (SERM), Ratemaking Call Papers, Climate Change Call Papers, and a host of independent research.

CAS Society Partners Program

The CAS Society Partner’s Program is designed to help firms build and maintain year-round relationships with the influential group of insurance professionals that are CAS members.

In FY 2018, the CAS maintained corporate partnerships with 15 organizations.

Four Diamond Partners - $25,000 Commitment

- DW Simpson
- EzraPenland.com

Three Platinum Partners - $20,000 Commitment

- Milliman
- PRYOR Executive Search
- ISO
- PINNACLE Actuarial Resources, Inc.
New Catastrophe Credentials Launched

As part of a partnership with The International Society of Catastrophe Managers (ISCM), iCAS introduced two new credentials that build upon knowledge and practice in the catastrophe management field and provide a benchmark for skills in catastrophe risk:

- Certified Specialist in Catastrophe Risk (CSCR) — a base credential that demonstrates a thorough understanding of essential catastrophe risk principles.
- Certified Catastrophe Risk Management Professional (CCRMP) — an advanced credential that recognizes the essential knowledge and mastery in the application of the principles and analytics in catastrophe risk management.

ISCM and iCAS will also provide a community of practice and opportunities for continuing education and collaboration to support catastrophe risk management professionals as a part of our partnership moving forward.

CSPA Credential Awarded to 140 Candidates

The Certified Specialist in Predictive Analytics (CSPA) credential was awarded to 140 new recipients in 2018, bringing the total number of CSPAs to 242.

During the 2018 CAS Ratemaking and Product Management Seminar in Chicago, Illinois, The CAS Institute honored the newest recipients of its CSPA credential. Over 80 recipients attended the 2018 RPM event and were recognized for their achievement.

Second Annual iCAS Community of Practice Event

The CAS Institute held its second Predictive Analytics Community of Practice Event on Monday, March 19, 2018. More than 30 members of iCAS discussed a variety of topics, including:

- “Bringing Actuarial Science into the Data Science Fold,” presented by Chris Monsour.
- “Claims Analytics,” presented by Ron Lettofsky.
- “How to Win an Analytics Competition,” led by Scott Sobel.

The group also had a lively discussion on the “Social Implications of Using Data,” facilitated by Bob Miccolis.
