

International University Recognition Program

CASUALTY ACTUARIAL SOCIETY

About the Casualty Actuarial Society

The Casualty Actuarial Society (CAS) is a leading international organization for credentialing and professional education. Founded in 1914, the CAS is the world's only actuarial organization focused exclusively on general insurance risks and serves 10,000 members worldwide. CAS members are experts in general insurance, reinsurance, finance, risk management, and enterprise risk management.

Professionals educated by the CAS empower business and government to make well-informed strategic, financial, and operational decisions. Our members hold a variety of actuarial and leadership positions with insurance and reinsurance companies, brokers, consulting firms, state insurance departments, educational institutions, financial services, and other businesses that are looking to assess and manage risk.

About the International University Recognition Program*

The CAS deeply values our partners in higher education who are supporting the development of the next generation of actuaries. With the recent rise of the general insurance across the globe, the CAS and partner universities can work together to equip students with the knowledge, skills, and innovative thinking to be future leaders in this growing field. This international recognition program enhances support for academic institutions that have demonstrated a commitment to strengthening their general insurance educational offerings. Numerous benefits are offered through this program and are designed to address the specific needs of partner universities depending on their assigned tier. Applications are accepted on a rolling basis.

^{*} The CAS has a parallel program for universities in the United States and Canada. Please visit the CAS website at <u>www.casact.org</u> for more information.

The CAS offers three levels of partnership with international universities. Participating universities will be asked to assess their qualifications and recertify every three years.

The following benefits and qualifications apply to the Fall 2023 – Summer 2026 cycle.

	Bronze Partners	Silver Partners	Gold Partners
University Partner Benefits
