Exam Content Outline

United States Regulation and Financial Reporting – Exam 6U

Delivery Format

APPOINTMENT TIME: 4.5 HOURS		
Exam Duration	Scheduled Break	Exam Tutorial, Confidentiality Agreement, End of Exam Survey
4 hours	15 min	15 min

Exam Item Types

Candidates may see the following item types in the CAS examinations. Candidates should become familiar with these item types. Item type samples are available on the Pearson Vue CAS webpage.

Multiple Choice

Multiple answer choices are presented after a problem with only one correct answer.

Multiple Selection

Multiple answer choices are presented after a problem with more than one correct answer.

Point and Click

An image is presented after a problem where the candidate must identify the correct area of the image by clicking on the correct location in the image.

Fill in the Blank

One or more blank sections are presented after the problem or within a statement where the candidate must input the correct response(s).

Matching

Content columns presented after a problem where the candidate must correctly match content from one column to another.

Constructed Response

A blank response area is presented after a problem where candidates must construct and develop their own answer.

Spreadsheet

Spreadsheet-type items are displayed to the candidate in a spreadsheet format and candidates can make use of most spreadsheet functions. Please review the testing guide prior to sitting for your exam to note any differences between the Pearson Vue testing environment and common spreadsheet software (e.g., Excel, Google Sheets).

Solutions.

Exam Cognitive Level

Each task is tied to a certain type of mental operation or thinking skill, which is called the cognitive level. ACAS and FCAS use four cognitive levels, and every examination item is authored to address both the task and one of the following cognitive levels paired with that task.

Remember: 40–50%

Tests the ability of the candidate to recall or remember knowledge or facts.

Understand and Apply: 10-20 %

Measures the candidate's ability to understand and apply ideas and concepts to new situations.

Analyze and Evaluate: 30-40 %

Requires the candidate analyze information, combine concepts/ideas, and justify a position resulting from that combination.

Create: 0-10%

Requires the candidate to synthesize conclusions by evaluating the validity of ideas and concepts.

Exam Section Details

DOMAINS	DOMAIN WEIGHT
A. United States Laws and Regulations	10-20%
B. Government Programs	5-15%
C. Financial Reporting and Professional Responsibilities of the Actuary	60-75%
D. Reinsurance Accounting Principles	5-10%

Expertise. Insight.
Solutions.

A. United States Laws and Regulations

Candidates will be able to navigate regulations required by various governmental agencies who oversee the work of insurers. Candidates will understand the dual U.S. state and federal regulatory system, along with the various state systems of regulation. The major areas of regulation for rate, contract terms, and solvency should be understood, as should the role of antitrust law as it pertains to insurance regulation and governance.

Candidates will understand regulations as they affect insurance ratemaking in the US, as well as regulatory and political aspects of risk classification.

Candidates will also be able to showcase knowledge in:

- Regulations for solvency in the US, including financial ratios tested by the National Association of Insurance Commissioners and guaranty fund mechanisms set up by various states.
- ORSA and risk-based capital calculations from the statutory blank and how they are used to monitor solvency.
- The judicial role in the development of tort law, as it related to actuarial subjects.

TASKS
1. Describe the historic development and the current state of insurance regulation and governance.
2. Discuss the historic development of solvency regulation; describe current programs used to monitor solvency.
3. Describe the current state of insurance regulation (e.g., Sarbanes-Oxley, Dodd-Frank) and how current regulations address specialized insurance topics.
4. Discuss current programs used to monitor solvency (RBC).
5. Describe regulation related to emerging issues (e.g., price optimization models, predictive analytics).
6. Discuss trends in tort litigation (e.g., tort reform, class action suits) and types of litigation costs.
7. Describe ways in which latent liability (e.g., mass torts like asbestos) can affect P/C insurance companies.

Expertise. Insight.
Solutions.

B. Government Programs

Candidates will be able to identify the major United States insurance programs administered by government agencies and insurance industry organizations.

Candidates will be expected to show an understanding of the objectives, operations, and effectiveness of the following insurance program:

- Automobile Plans, e.g., MD Fund
- Crop Insurance
- Flood Insurance
- Government Backstops, e.g., TRIA and Florida Hurricane Catastrophe Fund
- Guaranty funds
- Residual markets, e.g., auto, workers compensation, property
- Workers' compensation, including its interaction with Medicare.

TASKS
1. Describe the purpose of government and industry insurance programs.
2. Describe the operations and risk transfer process for government/industry programs and their interaction with voluntary private insurance sector.
3. Evaluate the effectiveness of a government/industry program.
Readings <ul style="list-style-type: none">- Cook- FHCF Annual Report- Government Insurers Study Note- Horn & Webel- Porter 2- Webel

Solutions.

C. Financial Reporting, Taxation, and Professional Responsibilities of the Actuary

Candidates will be able to apply detailed knowledge of the contents, purposes, and recent changes in the NAIC Annual Statement and the Insurance Expense Exhibit. Candidates will be able to demonstrate an understanding of federal income tax treatment, including loss reserve discounting, is expected. Candidates are expected to understand and use Insurer’s Annual Statements.

Candidates will be able to differentiate the details of, and the reasons for, Generally Accepted Accounting Principles (GAAP) for both insurance and non-insurance companies, Statutory Accounting Principles (SAP), and International Financial Reporting Standards (IFRS).

The candidate will be able to apply the various statutory requirements of the appointed actuary, and the appropriate professional standards and educational notes issued by the American Academy of Actuaries and the NAIC that are related to the financial reporting of property and casualty insurance companies.

TASKS	
1.	Describe the primary financial statements (i.e., balance sheet, income statement, cash flows, capital and surplus, notes to financial statements).
2.	Differentiate the primary financial statements (i.e., balance sheet, income statement, cash flows, capital and surplus, notes to financial statements).
3.	Use the annual statement schedules, insurance expense exhibits, RBC, IRIS ratios, and SAO to evaluate the financial health of an insurance entity.
4.	Differentiate between various accounting reporting principles and standards (e.g., SAP, GAAP).
5.	Explain the responsibilities of an actuary as defined by the standards of practice, regulators, and insurance laws for financial reporting.
6.	Explain the responsibilities of the appointed actuary in regard to a statement of actuarial opinion, actuarial opinion summary, and actuarial report.
7.	Identify and propose language for sections of the statement of actuarial opinion.
8.	Schedule P data in support of a SAO (statement of actuarial opinion).
9.	Create an actuarial opinion summary.
10.	Discuss and calculate specific elements of income tax and evaluate their implications for a property/casualty insurer (discounting).

D. Reinsurance Accounting Principals

The candidate will be able to use reinsurance accounting terminology and practice. This section presents the general concepts of reinsurance accounting to the candidate. The candidate should become familiar with reinsurance accounting terminology and practice.

TASKS
1. Describe reinsurance accounting and its impact on financial statements.
2. Evaluate whether the contract qualifies for insurance accounting treatment or deposit treatment.
3. Describe the accounting and tax treatments of commutations.
4. Evaluate the effectiveness of reinsurance strategies based on the impact to the financial statements and key financial metrics.
5. Evaluate the health of an insurance entity using Schedule F.
